DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 3

ADA, INDIAN TERRITORY, THURSDAY EVENING, AUGUST 16, 1906

NUMBER 125

REPORTED ARRANGEMENT OF ADA'S DISTRICT

An Ada citizen was in conversation with a man on the train this morning who claimed to have seen the official map indicating the constitutional delegate districts for the Indian Territory. He said that the district in which Ada is situated is formed by a line that begins at a township corner three miles due east of the south edge of the city limits, running north to the river, taking in Oakman and Tyrola. The line follows the river west to the township line, about four and a half miles west of Byars, thence south to a point within a mile of Iroquois, and east, missing Midland a half a mile, continuing along the south edge of Ada to the point mentioned above.

The man who gave this out, also stated that Roff is included in a district with Sulphur and Davis.

Robert Cummings said to a News reporter today that he has it officially that the districting board has given out that the Chickasaw Nation will have fourteen delegates and the Choctaw Nation thirteen. This makes a total of twenty-seven for the two decidedly Democratic Nations, leaving twenty-eight to be apportioned among the Seminole, Creek and Cherokee nations. That convention looks Democratic to us by big odds.

M'CURTAIN WILL SPEAK.

The Choctaw Governor Will Stump for Democratic Party.

South McAlester, I. T., Aug. 16.—Pres. Lester, private secretary to Gov. Green B. McCurtain of the Choctaw Nation, was in this city today and in the course of a conversation said that Gov. McCurtain was much more enthusiastic upon matters political than even his friends supposed he was and that he would take the stump for the Democratic party in a few days to work among the full-bloods.

The Governor's first speech will be made at Eagletown on the 27th of this month. On the 29th he speaks at Kullepikio, a full-blood settlement near the Red river line, eighteen miles from any railroad. On the first of September he will wind up the campaign in a speech at Atoka, which is bound to attract much attention.

M. L. Walsh will furnish you with the White Swan brand. Phone 17.

CHICKASAW AND CHOCTAW SIDE GETS 27 DISTRICTS

Muskogee, I. T., Aug. 15.—The Indian Territory districting board appointed by the president to form the election districts of the eastern part of the new state finished its work yesterday, after several days of consecutive sessions.

Members would make no public statement further than that a report would be made within a few days to the governor of Oklahoma and to the Chief Justice of Indian Territory, who will issue an election proclamation for the election of delegates to the constitutional convention.

The Oklahoma board has also completed its work and a report will be made to Governor Frantz at the same time the Indian Territory report is made to Judge Clayton.

Judge Clayton will go to Guthrie Friday for a conference with Governor Frantz and on that day they will draft an election proclamation.

This proclamation will be made public at their will—which in all probability, will be Monday of next week.

Until this proclamation is issued, neither board will make public the districts they have made.

The Indian Territory board will at once busy itself with the appointment of election commissioners in each district. There is to be one commissioner in each district. The commissioner appoints the judges and clerks of the election board in each voting precinct in his district.

Tams Bixby stated tonight that there will be at least 600 voting precincts in the fifty-five districts.

The districting commission will have the election ballots printed and delivered to the commissioners who will distribute them, each in his own district.

Ballot boxes and booths will be distributed in the same way. The commissioner in each district will return the ballots to the districting commissioner which will act as a canvassing board. This election will be for selecting delegates to the constitutional convention alone, and when that is done the district lines will stand for naught.

A description of the district boundary will be furnished every newspaper that will publish them, and in addition to this circulars will be printed and distributed widely through the territory in an effort to give the people as much information as possible.

A local firm of draughtsmen has a contract to make colored maps of the districts and this map will be ready shortly after the proclamation is issued.

The commissioners will give out absolutely nothing as to what the districts are until the proclamation is issued.

It is known that there are twenty-eight districts north of the Canadian river and twenty-seven south.

The Republicans who claim to know state that eighteen north of the river should be Republican. The Democrats claim the board has been unable to make a majority of districts show a normal Republican majority.

NEBRASKA LINES UP FOR THE GREAT COMMONER

Lincoln, Neb., Aug. 16.—When the Democrats of Nebraska met here yesterday for their state nominating convention, the purposes which seemed to be uppermost in the minds of the delegates was to do nothing which might displease William J. Bryan, in behalf of whose proposed presidential candidacy the Nebraska Democrats desire to insure the greatest possible degree of harmony. The convention met at 2 o'clock with Judge C. M. Skiles of David City as temporary chairman.

Judge Skiles, the temporary chairman, called the convention to order shortly after 2 o'clock and delivered his address in which he said:

Nebraska Democracy is a little better than the best and improves with age. A few years ago we were anarchists, repudiationists, calamity howlers. Standing for precisely the same principles today that we stood for then, we have suddenly become patriots, statesmen, benefactors. Talk about the miraculous conversion of St. Paul, we have been wholly redeemed without either conversion or repentance. Nebraska Democracy today stands undaunted, immutable, vindicated.

The time is speedily coming when by the advice and command of the American people, the guilty highwayman, the oppressors of the poor, and mockers of the courts will be brought to their knees in humble submission by an outraged people. It may take revolution, it may take bloodshed, but in my opinion it need take only courage, determination and backbone of an American president who will enforce the criminal laws of the United States against the multi-millionaires in this nation. Such a man is coming. He is our friend and neighbor, that intrepid, ceaseless, tireless fighter, the great commoner and defender of human

rights—William Jennings Bryan—the young gladiator of the west who ten years ago struck the first deadly blow ever aimed at the heart of plutocracy in this country.

If the signs of the time mean anything, they certainly mean hope and cheer to the hosts of Democracy. Vain, vain, are the battles against the right. The Chicago platform and William J. Bryan were right. Time has proven it, the American people now admit it. The turbulent waves of opposition have spent their forces; the black streams of denunciation, vituperation and abuse no longer flow. The campaign for 1908 began in 1896 and victory is practically assured. The American people are simply waiting to render their verdict in favor of Democratic principles as consistently advocated for ten years past by our great Democratic leader. The old time defenders of safe and sane doctrines have disappeared—some of them in the custody of the sheriff, while others have left their country for their country's good.

The "stand patters" will soon have to show their greedy hands. The American voter will no longer be bluffed. Already you can hear the pitter-patter of their tramping feet as they march into line for 1908. And when these pitter-patters meet the "stand patters," there will be a clatter-clatter of the "stand patters" as they kinter-canter to overwhelming defeat.

Sunday Excursion.

There will be a Frisco excursion to Sulphur next Sunday. A special train will leave Ada at 10:08 a. m. and returning will leave Sulphur at 6:30 p. m. Just a dollar for the round trip.

I will trade a good sewing machine for a shoat, also an organ for a pony. 120-24t w18-4t Lee Smith.

PROHIBITIONISTS READY FOR FIGHT TO THE FINISH

Oklahoma City, Ok., Aug. 16.—Rev. E. C. Dinwiddie, superintendent of legislation for the National Anti-Saloon league, who has arrived from Washington to take active charge of the campaign to be made in Oklahoma and the Indian Territory for a prohibition state, will in the next few days open headquarters in the Baltimore building where a suite of rooms has been engaged. Rev. Dinwiddie will be assisted by Revs. J. J. Thompson for Oklahoma and E. M. Sweet for Indian Territory, and an additional corps of helpers both in the office and the field. Miss L. R. Church, who has been Rev. Dinwiddie's private secretary for the past five years in Washington, will arrive in a few days and take charge of the office work.

Rev. Dinwiddie has visited many towns since coming to the territory and aside from these things in the work in which he is interested he is astonished at the progress of the new country.

The fight for prohibition is going to be pushed from this time on with increasing activity and every requisite justifiable will be put in motion in the hope of success. The prohibition question is going to be put squarely up to the business men and all, strictly on a business proposition. The moral side of it needs no argument nor discussion—it is too plain to everybody. The ques-

tion of enforcing the law after the law is made will rest with the officers of the law and the selection of the right kind of officers lays with the people. In this will be solved the question of whether prohibition will benefit or not.

A strong argument for the "lid" comes from Kansas City, where with the aid of Governor Folk, the saloons have been closed tight on Sunday and observed the law under which they are permitted to run. It is claimed that the police court records show a reduction of 25 per cent. in crime, such as usually comes from the saloon element, and that business among the merchants in the city has increased wonderfully, men employed on public works report promptly and in working condition on Monday morning, when they did not previously, and in the item of collections by the merchants doing a credit business, 60 per cent. improvement is noted. All this and more will be put up for argument in favor of prohibition.

The work of securing delegates to the constitutional convention pledged either to incorporate prohibition in the constitution or have it submitted in a separate issue for the people to vote on at the time of the election to ratify the constitution and elect officers for the state, will be prosecuted in every county in Oklahoma and recording district in Indian Territory.

MASONIC GRAND LODGE ADJOURNS AT ARDMORE

Ardmore, I. T., Aug. 16.—Wednesday's session of the Masonic Grand Lodge of Indian Territory was augmented by an increased attendance. Considerable routine business was transacted. The reports of several grand lodge officers' committees were read. Subordinate lodges will vote on the location of the orphans' home and a committee was appointed to make a special report to the grand master, who will submit the entire matter to the lodges for disposition.

Steps were taken looking to the merger of the Oklahoma and Indian Territory jurisdictions by the appointment of a committee to confer with a like committee of the Oklahoma grand lodge. South McAlester was selected as the next meeting place and the following officers elected and installed for the ensuing year: Grand master, W.

A. McBride, Atoka; deputy grand master, J. B. Mar, Checotah; grand senior warden, H. L. Muldrow, Tishomingo; grand junior warden, A. Eddleman, Ardmore; secretary, J. S. Murrow, Atoka; grand treasurer, Leo E. Benet, Muskogee.

The grand lodge adjourned at night, after which a reception was tendered the visitors at the Elks' club. Today the grand chapter of the Eastern Star will meet in annual session.

A GOOD DOCTOR

is a broad minded man, and one who has the interest of his patient at heart and does all in his power to care for his patient. The best doctors' skill and ability is of little consequence if his prescriptions are filled by incompetent druggists and with impure drugs. Our prescription department is the largest and most complete of any in the city and is composed of the purest drugs and chemicals and compounded by experienced druggists. Consequently the best results are obtained. We can fill any prescription written by any physician in the city. You do not need to take them elsewhere because they are written on other druggists' stationery.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

A MATTER OF PRECEDENCE.

We would like to ask some questions of each one of the farmers in the Chickasaw and Choctaw Nations who have been living here for years, fondly anticipating the time when they could buy land for a home here. Suppose some business house should advertise that at a certain time there would be a bargain sale of goods. Suppose you should want to buy some of those goods, and go to the sale, to be met at the threshold by a polite clerk, who would say: "Take a seat, Mr. Farmer; the house has made a rule that the negroes of this country shall have the first choice at these goods. You can get to the counter as soon as they are all satisfied." Think you, Mr. Farmer, that you would still have a desire to buy any goods from that house? Suppose that later a member of the firm controlling that sale should be a candidate for office? Would you feel like voting for him? Yet that is the way the Republicans are treating you in the land sale. When the time comes for the surplus lands of the Chickasaws and Choctaws to be sold, the white farmer must stand back until the negro has made his choice of such tracts as may suit him. Think that you will

vote with a party that gives you such a slap in the face as that. — Purcell Register.

THE NEW STATE FAIR.

There is vigorous enterprise in Muskogee. It is exemplified in their big New State Fair undertaking. This is to be held at that city from October 1st to 7th.

Every town in the coming state is invited to have exhibits. It will be a good opportunity for Ada to advertise to the world its infinite variety of resources. Car loads of exhibits of produce and live stock will be hauled thither and return at one way rate. Ada would do well to get busy and get in on this.

The rain came in on scheduled time this afternoon.

Ada has only two pastors. We claim 4000 people too. A measly shame.

Four of the local churches are without pastors. The News would like to see them get busy.

It is thought that the bonds for the dam and additional waterworks will be voted on the latter part of October. That is not any too soon for the News.

THE Texas Democrats are having a good time at Dallas this week. Never mind there will be something doing in Democratic Oklahoma before long. Just watch us smoke.

If unofficial reports are true, the constitutional district in which Ada is located includes the towns of Oakman, Tyrola, Maxwell, Bebee, Center, Chism, Johnson, Byars, McGee, Baudinot and Iroquois. A lot of good communities filled with good people.

Hot weather saps the vital energy and makes the hardest workers feel lazy. To maintain strength and energy use Prickly Ash Bitters.

The End of the World

of troubles that robbed E. H. Wolfe, of Bear Grove, Iowa, of all usefulness came when he began taking Electric bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I never would have survived had I not taken Electric bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50 cents. Guaranteed by G. M. Ramsey's and F. Z. Holley's drug store.

RAPID FLIGHT OF TIME.

Mule That Aged Five Years Between the Months of February and June.

Mr. Justice Brewer, of the United States supreme court, in lecturing to his law class at the George Washington university, says the American Spectator, told the following story:

"I knew of a case once where two darkies swapped mules. One of them was an old hand at the business, and in making the trade he represented his mule to be seven years old, and told of the many good traits the animal had not. This was in February. About two months later the other darky began to realize that he had been victimized in the bargain and that the beast was fully 12 years old. So he decided to go back and tell the swindler he had lied to him about the animal. However, owing to it being the busy season of farming, he was not able to go until about the middle of June. He finally did go, and told his man what he thought of his rascally misrepresentations about the mule.

"You say," said the other fellow, "dat when you got de mule in February he was seven years old, and now it's June and he's 12 years old?"

"Yes, I do!" was the angry response.

"Well, sah, time sure do fly."

JAMAICANS LACK GINGER.

Seek Employment at Panama, But Are Said to Be Wasteful and Stupid.

Jamaicans are apparently jacks of all trades. Hungry for the big wages of Panama, school teachers, barbers, shoemakers, store clerks have flocked to the isthmus to find employment as masons, carpenters, blacksmiths and painters indifferently, says Everybody's Magazine. They are wasteful; they are stupid; they are possessed with an unutterable hatred of exertion other than conversation, preferably on religious or ethical topics. Here are some statistics from my friend the foreman of painters: Hospital 54 is a building about 40 feet square; the amount of white lead required for the paint to be applied to it would be, here in the states, about 75 pounds; it was necessary to use 250 pounds of white lead on the job; none of it was wasted; none was carried away; that white lead and all the other wasted materials which were mixed with it are chargeable to the Jamaica negro's inefficiency. Yet the canal must be built with Jamaican labor in the main. Some workmen are being brought from Galicia, in Spain, some have been imported from Martinique; a few, very few, have come down from the United States.

FIND HEART OF RAMESES

Vital Organ of Great Egyptian King Preserved in Vase for 3,164 Years.

A recent issue of the Comptes Rendus of the Paris academy contains an account of the successful identification of the heart of Rameses II., the Sesotris of the Greeks, after having been preserved since 1258 B. C. in soda and resinoid antiseptics.

Some months ago, says the New York Times, the council of the National Museum of the Louvre acquired possession of the four vases in blue enamel which contain the viscera and heart of Rameses II., and bear large medallions representing the names and attributes of the king.

The directors of the Egyptian museum desired absolute confirmation as to the contents of the vases and intrusted the examination of their contents to M. Lortet, who, with his colleagues, Professors Hugouenq, Renaut and Rigan, made a careful physiological examination. Three of the vases contained bandages of linen tightly compacted and hardened by the carbonate of soda and aromatic resinous substances of reddish color, which had been employed as antiseptics and had probably contained the stomach, intestines and liver of the great king. These viscera, however, were only found to be represented by a quantity of granular matter, mixed with a large proportion of powdered carbonate of soda and so could not be identified.

The fourth vase, which was fitted with a lid or cover adorned with the head of a jackal, proved to contain the heart. This organ was found transformed into a kind of oval plate, eight centimeters long and four centimeters wide. The substance of the heart was hornlike and the saw had to be used in obtaining sections of it for examination and finally the razor, so as to reduce these sections to the attenuation necessary for microscopic examination.

Under the microscope these sections gave unmistakable evidence of the muscular fibers peculiar to the heart, especially characterized by being arranged in bundles of such fibers, crossing each other. Since this special muscular arrangement is not found in any other part of the body except the tongue and as the mummy of Rameses II., which is preserved at Cairo, contains the tongue intact, the experts have no doubt whatever that the vase actually contained the heart of Rameses II., flattened and transformed into a hornlike substance by its long sojourn in the soda preservatives.

King Rameses II. died 1,258 years before the Christian era and hence some 3,164 years have elapsed since his heart was first embalmed.

NO NOMINATION YET.

During Wednesday Texas Convention Took Only One Ballot for Governor.

Under the new election law of Texas the nominating procedure is a ponderous, intricate matter. The Democratic State convention in session at Dallas, though kept busy during Wednesday, the second day, effected no nomination for governor. Senator Bailey, who had no opposition, was perfunctorily declared the nominee for re-election. Late in the day the first ballot for the governorship was taken, but all the complex computations were not completed. However, the convention vote will be: Campbell, 195,852; Colquitt, 157,124; Bell, 156,489; Brooks, 137,971. Receiving the lowest vote, Brooks will be dropped. There is no certainty which of the three remaining will win out.

MANY RESTRICTIONS REMOVED.

Not More Than 10 per cent of Applications disapproved.

Muskogee, I. T., Aug. 14.—The removal of restrictions division at the agency is getting under way again and the Indian agent is passing on applications at the rate of from thirty to forty per day. The agent states that the applications now coming in are from an intelligent class of Indians and that there are not more than ten per cent of the applications disapproved at the agency. Of these approved by the agent there are about two per cent disapproved by the department of interior and these are in the oil districts of the Creek and Cherokee Nations. The applications come about equally from men and women and in nearly every instance the reasons set forth for wanting to sell the land is to get funds to improve the rest of the allotment.

WHEAT SPROUTS IN STACK.

Continual Wet Weather Endangers the Harvested Grain.

Guthrie, O. T., Aug. 16.—Farmers are discovering that the continued rains have damaged some of the stacked grain as well as that which has been left in the shock. Damage has been sustained where the wind has blown the top bundles out of place, allowing the rain to soak in.
This season has been like that of 1900. That year some of the stacked grain sprouted, causing the stacks to grow solid from top to bottom. It was necessary to cut the stacks in two with hay knives and to allow them to dry before the grain could be threshed and then it was of inferior quality. The farmers in some localities fear that they may meet similar conditions this year.

Cement Men Depart.

Messrs Beck and Bishop of the cement Company, having attended to all matters connected with the establishment of their plant here possible right at the present time, returned Wednesday afternoon to Chicago. The site has not been finally determined upon. They will need to take that matter up with the railroads to some extent. However, the gentlemen are fully satisfied with the action of the city council and the general attitude of Ada's citizens. There's a world of details to be looked after in getting together the plant's equipment. They will at once busy themselves with that.

Central to Reach Chick. in Feb.

Chickasha, I. T., Aug. 16.—J. F. Sharp, Gen. Atty. of the Oklahoma Central, was in the city and in an interview, stated that his road would reach Chickasha some time about the first of Feb., the weather permitting. The past few weeks of rainy weather has interfered to a considerable extent with the grading and track laying and has put the work in something of a backward condition.

Christian People, Notice.

The pastors, S. S. Superintendents and those interested in church work are requested to call on me and get the names of those persons converted in the Oliver revival and call upon them. Would like for you to do this at once; the lists are now ready, and if they are not called for at once they may be lost or destroyed. Please call immediately. Orel M. Harper, Chairman of Secretarial Committee.

First Lesson Sunday.

A number of Ada young men met last evening at the Presbyterian church and discussed the matter of organizing the A. Y. M. B. S. The first lesson is Neh. 4th chapter. They will meet Sunday afternoon at 3 o'clock at the Presbyterian church to complete the organization and elect officers. A full attendance is desired; all are invited. The young women of the city will in all probability form a similar society in the near future.

In Self Defense

Major Hamm, editor and manager of the Constitutionalist, Eminence, Ky., when he was attacked 4 years ago by piles, bought a box of Bucklen's Arnica salve, of which he says: "It cured me in ten days and no trouble since." Quickest healer of burns, sores, cuts and wounds. 25c at G. M. Ramsey's and F. Z. Holley's, drug stores.

Cotton Gin Leased.

J. H. Cantrell and A. B. Auld of Ada have leased for the season the Stone-wall cotton gin from Mooney Harrison and Jackson. Auld will move his family to Stonewall and reside there during the cotton season.

W. W. Higgins Will Teach.

Our townsman, W. W. Higgins, has accepted a position in the city schools at Houston, Texas. He has rented his residence to T. B. Kile and will leave September 1st. He will return to Ada however, he says, at some future time.

Texas Testimony.

JONES BROS.

MIGRATION OF WILD GEESSE

How the Old Leader of a Flock Gathers It and Starts on Its Journey.

At the end of March or during the first week in April all the gray geese in the Outer Hebrides collect in one place before taking their departure for their nesting haunts within the Arctic circle.

To estimate their numbers is impossible, and to behold this vast concourse of geese as one of the sights of a lifetime. The vast host of birds stands packed together in a huge phalanx till the king of the graylegs starts the flight. As the old leader ascends a hundred thousand voices salute him, but none stir till from overhead he gives the call for his subjects to follow him.

Some fifty birds rise in the air and follow him, and as they go gradually assume the wedge-like formation, with three single birds in a string at the apex of the triangle, and in a few minutes are out of sight. When they have been fairly started the king returns, and after a few minutes rest he rises into the air again, and the same process is gone through before he leads of another batch.

Again and again he returns until all are gone but 300 old veterans, which rise to meet him in the air as he flies back to them. Then, with their sovereign at their head, these also wing their way toward the pole not to return until the following October.

MEASURING DEPTH OF AIR

Atmospheric Envelope of Earth Determined by Interesting Scientific Observation.

One hundred and 31 miles is the height of the atmosphere as measured by Prof. T. J. J. See, who determines the thickness of the air envelope by noting the difference between the time of sunset and the complete disappearance of blue from the sky. The moment at which the blue changes into black can be observed quite easily with approximate certainty by the naked eye when the air is clear; and by trigonometry may be ascertained the distance below the horizon of the sun at the moment of change. By this means may be calculated the height of the smallest illuminated particles of oxygen and nitrogen which give to the sky its blueness of tint by the reflection of the smallest wave lengths of the sun's light. The instant of change from blue to black is possibly a little difficult of exact observation, but the method is not more doubtful than that based in the observation of shooting stars. The shooting star method gives a result not greatly differing from the vanishing blue method. The former gives the height of the atmosphere at 109 miles.

Swiftest of Torpedoes.
The new torpedo of the United States navy is one of the most powerful sea weapons in existence. It will travel more than two and a quarter miles, or twice the range of the White-head torpedo, which it surpasses. The new missile is turbine driven. The government will purchase and construct 400 of these torpedoes at a cost of several millions.

Strong Hint in the Figures.
"Gladys," called her pa, "what time is it?"
"It's eleven, father."
"It's 12 up here. Eleven and 12 are 23."
And then the young man departed. —Houston Chronicle.

Thrown Out.
"And you say you lost your position by the great earthquake in San Francisco?" inquired the kind lady.
"Yes, mum," replied Prayed Franklyn.
"What was your position?"
"I wuz asleep in a barn at de time, mum."—Milwaukee Sentinel.

Galveston's Sea Wall

makes life now as safe in that city as on the higher uplands. E. W. Goodloe, who resides on Dutton St., in Waco, Texas, needs no sea wall for safety. He writes: "I have used Dr. King's new discovery for consumption the past 5 years and it keeps me well and safe. Before that time I had a cough which for years had been growing worse. Now it's gone." Cures chronic coughs, la grippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at G. M. Ramsey's and F. Z. Holley's drug stores. Price 50c and \$1. Trial bottle.

A Mystery Solved.

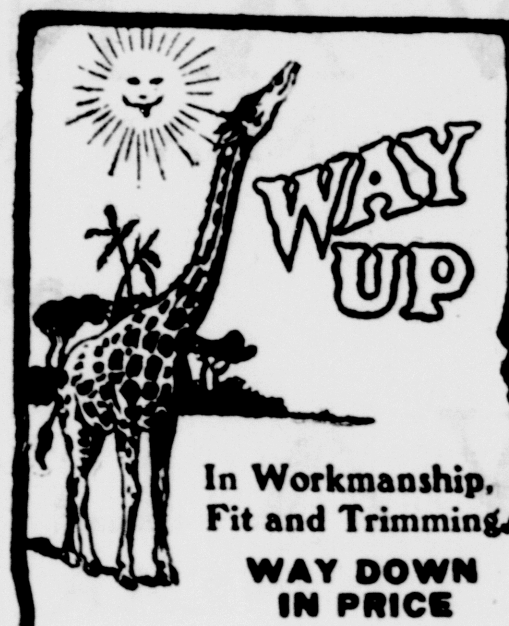

"How to keep off periodic attacks of biliousness and habitual constipation was a mystery that Dr. King's new life pills solved for me," writes John N. Pleasant, of Magnolia, Ind. The only pills that are guaranteed to give perfect satisfaction to everybody or money refunded. Only 25c at G. M. Ramsey's and F. Z. Holley's drug stores.

Found Dead on the Streets.

A young man was found dead on the streets of Baton Rouge, supposed to have died from a congestive chill, which could have been prevented by the timely use of Dr. Mendenhall's Chill and Fever Cure. Sold by G. M. Ramsey, druggist.

Don't Inhibit the Children.

If the children are afflicted with chills and fever do not inhibit them with disagreeable medicines when you can get a pleasant remedy like Dr. Mendenhall's chill and fever cure. Any child will take it readily. Sold on a signed guaranty to be better than any other by G. M. Ramsey, druggist.

The NICKEL STORE

Where You Save Money on Everything.

Quality and the best for the lowest price. We are buying and selling only merchandise that will give satisfaction to our customers, and meet all competition on quality and price, but we do not destroy other people's business. We have laid a foundation that is increasing our business by selling the right goods at the right time and at a satisfactory price. Merit is the true test of success. Better values at the price is the true test of cheapness. CASH—NO CREDIT TO ANYONE.

Fine Crockery

We just added to this department a new feature, the Colonial Gold Decorated Dinner Ware. The prices we intend putting on them will label them as bargains without our telling you.

Colonial Gold Decorated Cups and Saucers, 10c each or 60c a set.

7 inch plates of the same ware, gold decorated, 60c set.

10 inch platters, gold decorated, 18c each.

7 inch oval meat and vegetable dishes, 18c each.

Besides this line you will find many other dining room and kitchen necessities, convenient for inspection, all priced in plain figures.

Stoneware

We are selling Stoneware dirt cheap.

Milk Pans or Crock, 1 gallon, usual price 10c., our price 6c

Milk Pans or Crock, 2 gallon, usual price 20c., our price 12c

Tall jars, up to and including six gallon sizes, cost you 6c per gallon. You will find the tall jars particularly nice for putting up your kraut and pickles, etc.

6 gallon tall jars, usual price 60c, our price 36c

This shows you the saving nearly half.

Our Stationery Department

This is, has been and will be one of the most successful in the store. We sell pens, ink, mucilage, glue, composition books, ledgers, journals, day books, tablets both for pencil and ink, ruled and unruled, 5c.

We also in this department keep slates, slate pencils, school boxes and school supplies.

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 3

ADA, INDIAN TERRITORY, THURSDAY EVENING, AUGUST 16, 1906

NUMBER 125

REPORTED ARRANGEMENT OF ADA'S DISTRICT

An Ada citizen was in conversation with a man on the train this morning who claimed to have seen the official map indicating the constitutional delegate districts for the Indian Territory. He said that the district in which Ada is situated is formed by a line that begins at a township corner three miles due east of the south edge of the city limits, running north to the river, taking in Oakman and Tyrola. The line follows the river west to the township line, about four and a half miles west of Byars, thence south to a point within a mile of Iroquois, and east, missing Midland a half a mile, continuing along the south edge of Ada to the point mentioned above.

The man who gave this out, also stated that Roff is included in a district with Sulphur and Davis.

Robert Cummings said to a News reporter today that he has it officially that the districting board has given out that the Chickasaw Nation will have fourteen delegates and the Choctaw Nation thirteen. This makes a total of twenty-seven for the two decidedly Democratic Nations, leaving twenty-eight to be apportioned among the Seminole, Creek and Cherokee nations. That convention looks Democratic to us by big odds.

M'CURTAIN WILL SPEAK.

The Choctaw Governor Will Stump for Democratic Party.

South McAlester, I. T., Aug. 16.—Pres. Lester, private secretary to Gov. Green B. McCurtain of the Choctaw Nation, was in this city today and in the course of a conversation said that Gov. McCurtain was much more enthusiastic upon matters political than even his friends supposed he was and that he would take the stump for the Democratic party in a few days to work among the full-bloods.

The Governor's first speech will be made at Eagletown on the 27th of this month. On the 29th he speaks at Kullepikio, a full-blood settlement near the Red river line, eighteen miles from any railroad. On the first of September he will wind up the campaign in a speech at Atoka, which is bound to attract much attention.

M. L. Walsh will furnish you with the White Swan brand. Phone 17. 95-11

Get your cold drinks and confectionaries at Evan's neatly furnished ice cream parlor. 112-11.

CHICKASAW AND CHOCTAW SIDE GETS 27 DISTRICTS

Muskogee, I. T., Aug. 15.—The Indian Territory districting board appointed by the president to form the election districts of the eastern part of the new state finished its work yesterday, after several days of consecutive sessions.

Members would make no public statement further than that a report would be made within a few days to the governor of Oklahoma and to the Chief Justice of Indian Territory, who will issue an election proclamation for the election of delegates to the constitutional convention.

The Oklahoma board has also completed its work and a report will be made to Governor Frantz at the same time the Indian Territory report is made to Judge Clayton.

Judge Clayton will go to Guthrie Friday for a conference with Governor Frantz and on that day they will draft an election proclamation.

This proclamation will be made public at their will—which in all probability, will be Monday of next week.

Until this proclamation is issued, neither board will make public the districts they have made.

The Indian Territory board will at once busy itself with the appointment of election commissioners in each district. There is to be one commissioner in each district. The commissioner appoints the judges and clerks of the election board in each voting precinct in his district.

Tams Bixby stated tonight that there will be at least 600 voting precincts in the fifty-five districts.

The districting commission will have the election ballots printed and delivered to the commissioners who will distribute them, each in his own district.

Ballot boxes and booths will be distributed in the same way. The commissioner in each district will return the ballots to the districting commissioner which will act as a canvassing board. This election will be for selecting delegates to the constitutional convention alone, and when that is done the district lines will stand for naught.

A description of the district boundary will be furnished every newspaper that will publish them, and in addition to this circulars will be printed and distributed widely through the territory in an effort to give the people as much information as possible.

A local firm of draughtsmen has a contract to make colored maps of the districts and this map will be ready shortly after the proclamation is issued.

The commissioners will give out absolutely nothing as to what the districts are until the proclamation is issued.

It is known that there are twenty-eight districts north of the Canadian river and twenty-seven south.

The Republicans who claim to know state that eighteen north of the river should be Republican. The Democrats claim the board has been unable to make a majority of districts show a normal Republican majority.

NEBRASKA LINES UP FOR THE GREAT COMMONER

Lincoln, Neb., Aug. 16.—When the Democrats of Nebraska met here yesterday for their state nominating convention, the purposes which seemed to be uppermost in the minds of the delegates was to do nothing which might displease William J. Bryan, in behalf of whose proposed presidential candidacy the Nebraska Democrats desire to insure the greatest possible degree of harmony. The convention met at 2 o'clock with Judge C. M. Skiles of David City as temporary chairman.

Judge Skiles, the temporary chairman, called the convention to order shortly after 2 o'clock and delivered his address in which he said:

Nebraska Democracy is a little better than the best and improves with age. A few years ago we were anarchists, repudiationists, calamity howlers. Standing for precisely the same principles today that we stood for then, we have suddenly become patriots, statesmen, benefactors. Talk about the miraculous conversion of St. Paul, we have been wholly redeemed without either conversion or repentance. Nebraska Democracy today stands undaunted, immutable, vindicated.

The time is speedily coming when by the advice and command of the American people, the guilty highwayman, the oppressors of the poor, and mockers of the courts will be brought to their knees in humble submission by an outraged people. It may take revolution, it may take bloodshed but in my opinion it need take only courage, determination and backbone of an American president who will enforce the criminal laws of the United States against the multi-millionaires in this nation. Such a man is coming. He is our friend and neighbor, that intrepid, ceaseless, tireless fighter, the great commoner and defender of human

rights—William Jennings Bryan the young gladiator of the west who ten years ago struck the first deadly blow ever aimed at the heart of plutocracy in this country.

If the signs of the time mean anything, they certainly mean hope and cheer to the hosts of Democracy. Van, vain, are the battles against the right. The Chicago platform and William J. Bryan were right. Time has proven it, the American people now admit it. The turbulent waves of opposition have spent their forces, the black streams of denunciation, vituperation and abuse no longer flow. The campaign for 1908 began in 1896 and victory is practically assured. The American people are simply waiting to render their verdict in favor of Democratic principles as consistently advocated for ten years past by our great Democratic leader. The old time defenders of safe and sane doctrines have disappeared—some of them in the custody of the sheriff, while others have left their country for their country's good.

The "stand pat" will soon have to show their greedy hands. The American voter will no longer be bluffed. Already you can hear the pitter-patter of their tramping feet as they march into line for 1908. And when these pitter-patters meet the "stand pat" there will be a clatter-clatter of the "stand pat" as they kink-kink to overwhelming defeat.

Sunday Excursion.

There will be a Frisco excursion to Sulphur next Sunday. A special train will leave Ada at 10:00 a. m. and returning will leave Sulphur at 5:30 p. m. Just a dollar for the round trip.

I will trade a good sewing machine for a shoat, also an organ for a pony. 120-241 w18-4t. Lec Smith.

PROHIBITIONISTS READY FOR FIGHT TO THE FINISH

Oklahoma City, Ok., Aug. 15.—Rev. E. C. Dinwiddie, superintendent of legislation for the National Anti-Saloon league, who has arrived from Washington to take active charge of the campaign to be made in Oklahoma and the Indian Territory for a prohibition state, will in the next few days open headquarters in the Baltimore building where a suite of rooms has been engaged. Rev. Dinwiddie will be assisted by Revs. J. J. Thompson for Oklahoma and E. M. Sweet for Indian Territory, and an additional corps of helpers both in the office and the field. Miss L. R. Church, who has been Rev. Dinwiddie's private secretary for the past five years in Washington, will arrive in a few days and take charge of the office work.

Rev. Dinwiddie has visited many towns since coming to the territory, and aside from these things in the way in which he is interested he is also at the progress of the new country.

The fight for prohibition is going to be pushed from this time on with increasing activity and every requisite justifiable will be put in motion in the hope of success. The prohibition question is going to be put squarely up to the business men and all, strictly on a business proposition. The moral side of it needs no argument nor discussion—it is too plain to everybody. The question of enforcing the law after the law is made will rest with the officers of the law and the selection of the right kind of officers lays with the people. In this will be solved the question of whether prohibition will benefit or not. A strong argument for the "hid" comes from Kansas City, where with the aid of Governor Folk, the saloons have been closed tight on Sunday and observed the law under which they are permitted to run. It is claimed that the police court records show a reduction of 25 per cent. in crime, such as usually comes from the saloon element, and that business among the merchants in the city has increased wonderfully, men employed on public works report promptly and in working condition on Monday morning, when they did not previously, and in the item of collections by the merchants doing a credit business, 60 per cent. improvement is noted. All this and more will be put up for argument in favor of prohibition. The work of securing delegates to the constitutional convention pledged either to incorporate prohibition in the constitution or have it submitted in a separate issue for the people to vote on at the time of the election to ratify the constitution and elect officers for the state, will be prosecuted in every county in Oklahoma and recording district in Indian Territory.

MASONIC GRAND LODGE ADJOURNS AT ARDMORE

Ardmore, I. T., Aug. 16.—Wednesday's session of the Masonic Grand Lodge of Indian Territory was augmented by an increased attendance. Considerable routine business was transacted. The reports of several grand lodge officers' committees were read. Subordinate lodges will vote on the location of the orphans' home and a committee was appointed to make a special report to the grand master, who will submit the entire matter to the lodges for disposition.

Steps were taken looking to the merger of the Oklahoma and Indian Territory jurisdictions by the appointment of a committee to confer with a like committee of the Oklahoma grand lodge. South McAlester was selected as the next meeting place and the following officers elected and installed for the ensuing year: Grand master, W. A. McBride, Atoka; deputy grand master, J. B. Mar, Checotah; grand senior warden, H. L. Muldrow, Tishomingo; grand junior warden, A. Eddleman, Ardmore; secretary, J. S. Murrow, Atoka; grand treasurer, Leo E. Benet, Muskogee.

The grand lodge adjourned at night, after which a reception was tendered the visitors at the Elks' club. Today the grand chapter of the Eastern Star will meet in annual session.

A GOOD DOCTOR

is a broad minded man, and one who has the interest of his patient at heart and does all in his power to care for his patient. The best doctors' skill and ability is of little consequence if his prescriptions are filled by incompetent druggists and with impure drugs. Our prescription department is the largest and most complete of any in the city and is composed of the purest drugs and chemicals and compounded by experienced druggists. Consequently the best results are obtained. We can fill any prescription written by any physician in the city. You do not need to take them elsewhere because they are written on other druggists' stationery.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the controller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

A MATTER OF PRECEDENCE.

We would like to ask some questions of each one of the farmers in the Chickasaw and Choctaw Nations who have been living here for years, fondly anticipating the time when they could buy land for a home here. Suppose some business house should advertise that at a certain time there would be a bargain sale of goods. Suppose you should want to buy some of those goods, and go to the sale, to be met at the threshold by a polite clerk, who would say "Take a seat, Mr. Farmer, the house has made a rule that the negroes of this country shall have the first choice at these goods. You can get to the counter as soon as they are all satisfied." Think you, Mr. Farmer, that you would still have a desire to buy any goods from that house? Suppose that later a member of the firm controlling that sale should be a candidate for office? Would you feel like voting for him? Yet that is the way the Republicans are treating you in the land sale. When the time comes for the surplus lands of the Chickasaws and Choctaws to be sold, the white farmer must stand back until the negro has made his choice of such tracts as may suit him. Think that you will

vote with a party that gives you such a slap in the face as that. — Purcell Register.

THE NEW STATE FAIR.

There is vigorous enterprise in Muskogee. It is exemplified in their big New State Fair undertaking. This is to be held at that city from October 1st to 7th.

Every town in the coming state is invited to have exhibits. It will be a good opportunity for Ada to advertise to the world its infinite variety of resources. Car loads of exhibits of produce and live stock will be hauled thither and return at one way rate. Ada would do well to get busy and get on this.

THE rain came in on scheduled time this afternoon.

ADA has only two pastors. We claim 4000 people too. A measly shame.

FOUR of the local churches are without pastors. The News would like to see them get busy.

It is thought that the bonds for the dam and additional waterworks will be voted on the latter part of October. That is not any too soon for the News.

THE Texas Democrats are having a good time at Dallas this week. Never mind there will be something doing in Democratic Oklahoma before long. Just watch us smoke.

If unofficial reports are true, the constitutional district in which Ada is located includes the towns of Oakman, Tryola, Maxwell, Beebe, Center, Chism, Johnson, Evans, McGee, Bandidot and Iroquois. A lot of good communities filled with good people.

Hot weather saps the vital energy and makes the best workers feel lazy. To maintain strength and energy use Prickly Ash Bitters.

The End of the World

of troubles that robbed E. H. Wolfe, of Bear Grove, Iowa, of all usefulness came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I never would have survived had I not taken Electric Bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50 cents. Guaranteed by G. M. Ramsey and J. Z. Holley's drug store.

RAPID FLIGHT OF TIME.

Mule That Aged Five Years Between the Months of February and June.

Mr. Justice Brewer, of the United States supreme court, in lecturing to his law class at the George Washington university, says the American Spectator, told the following story:

"I knew of a case once where two darkies swapped mules. One of them was an old hand at the business, and in making the trade he represented his mule to be seven years old, and told of the many good traits the animal had not. This was in February. About two months later the other darky began to realize that he had been victimized in the bargain and that the beast was fully 12 years old. So he decided to go back and tell the swindler he had lied to him about the animal. However, owing to it being the busy season of farming, he was not able to go until about the middle of June. He finally did go and told his man what he thought of his rascally misrepresentations about the mule. 'You say,' said the other fellow, 'dat when you got de mule in February he was seven years old, and now it's June and he's 12 years old?' 'Yes, I do!' was the angry response. 'Well, sah, time sure do fly'."

JAMAICANS LACK GINGER.

Seek Employment at Panama, But Are Said to Be Wasteful and Stupid.

Jamaicans are apparently jacks of all trades. Hungry for the big wages of Panama, school teachers, barbers, shoemakers, store clerks have flocked to the isthmus to find employment as masons, carpenters, blacksmiths and painters. Indifferently, says Everybody's Magazine. They are wasteful, they are stupid, they are possessed with an unutterable hatred of exertion, other than conversation, preferably on religious or ethical topics. Here are some statistics from my friend, the foreman of painters. Hospital 54 is a building about 40 feet square. The amount of white lead required for the paint to be applied to it would be here in the states about 75 pounds. It was necessary to use 250 pounds of white lead on the job. None of it was wasted, none was carried away, that white lead and all the other wasted materials which were mixed with it are chargeable to the Jamaica negro's inefficiency. Yet the canal must be built with Jamaican labor in the main. Some workmen are being brought from Galicia in Spain, some have been imported from Martinique. A few very few have come down from the United States.

FIND HEART OF RAMESES

Vital Organ of Great Egyptian King Preserved in Vase for 3,164 Years.

A recent issue of the Comptes Rendus of the Paris academy contains an account of the successful identification of the heart of Rameses II., the Sesotris of the Greeks, after having been preserved since 1258 B. C. in soda and resinoid antiseptics.

Some months ago, says the New York Times, the council of the National Museum of the Louvre acquired possession of the four vases in blue enamel which contain the viscera and heart of Rameses II., and bear large medallions representing the names and attributes of the king.

The directors of the Egyptian museum desired absolute confirmation as to the contents of the vases and intrusted the examination of their contents to M. Lortet, who, with his colleagues, Professors Huguoneng, Renault and Rigan, made a careful physiological examination. Three of the vases contained bandages or linen tightly compacted and hardened by the carbonate of soda and aromatic resinous substances of reddish color, which had been employed as antiseptics and had probably contained the stomach, intestines and liver of the great king. These viscera, however, were only found to be represented by a quantity of granular matter mixed with a large proportion of powdered carbonate of soda and so could not be identified.

The fourth vase, which was fitted with a lid or cover lined with the head of a jackal proved to contain the heart. This organ was found transformed into a kind of oval plate, eight centimeters long and four centimeters wide. The substance of the heart was hornlike and the saw had to be used in obtaining sections of it for examination and finally the razor so as to reduce these sections to the attenuation necessary for microscopic examination.

Under the microscope these sections gave unmistakable evidence of the muscular fibers peculiar to the heart, especially characterized by being arranged in bundles of such fibers crossing each other. Since this special muscular arrangement is not found in any other part of the body except the tongue and as the mummy of Rameses II. which is preserved at Cairo, contains the tongue intact, the experts have no doubt whatever that the vase actually contained the heart of Rameses II. flattened and transformed into a hornlike substance by its long sojourn in the soda preservatives.

King Rameses II. died 1,258 years before the Christian era and hence some 3,164 years have elapsed since his heart was first embalmed.

NO NOMINATION YET.

During Wednesday Texas Convention Took Only One Ballot for Governor.

Under the new election law of Texas the nominating procedure is a ponderous, intricate matter. The Democratic State convention in session at Dallas, though kept busy during Wednesday, the second day, effected no nomination for governor. Senator Bailey, who had no opposition, was perfunctorily declared the nominee for re-election. Late in the day the first ballot for the governorship was taken, but all the complex computations were not completed. However, the convention vote will be: Campbell, 195,832; Colquitt, 157,124; Bell, 156,189; Brooks, 137,971. Receiving the lowest vote, Brooks will be dropped. There is no certainty which of the three remaining will win out.

MANY RESTRICTIONS REMOVED.

Not More Than 10 per cent of Applications disapproved.

Muskogee, I. T., Aug. 14.—The removal of restrictions division at the agency is getting under way again and the Indian agent is passing on applications at the rate of from thirty to forty per day. The agent states that the applications now coming in are from an intelligent class of Indians and that there are not more than ten per cent of the applications disapproved at the agency. Of these approved by the agent there are about two per cent disapproved by the department of interior and these are in the oil districts of the Creek and Cherokee Nations. The applications come about equally from men and women and in nearly every instance the reasons set forth for wanting to sell the land is to get funds to improve the rest of the allotment.

WHEAT SPROUTS IN STACK.

Continual Wet Weather Endangers the Harvested Grain.

Guthrie, O. T., Aug. 16.—Farmers are discovering that the continued rains have damaged some of the stacked grain as well as that which has been left in the shock. Damage has been sustained where the wind has blown the top bundles out of place, allowing the rain to soak in.

This season has been like that of 1900. That year some of the stacked grain sprouted, causing the stacks to grow solid from top to bottom. It was necessary to cut the stacks in two with hay knives and to allow them to dry before the grain could be threshed and then it was of inferior quality. The farmers in some localities fear that they may meet similar conditions this year.

Cement Men Depart.

Messers Beck and Bishop of the cement Company, having attended to all matters connected with the establishment of their plant here possible right at the present time, returned Wednesday afternoon to Chicago. The site has not been finally determined upon. They will need to take that matter up with the railroads to some extent. However, the gentlemen are fully satisfied with the action of the city council and the general attitude of Ada's citizens. There's a world of details to be looked after in getting together the plant's equipment. They will at once busy themselves with that.

Central to Reach Chick. in Feb.

Chickasha, I. T., Aug. 16. J. F. Sharp, Gen. Atty. of the Oklahoma Central, was in the city and in an interview, stated that his road would reach Chickasha some time about the first of Feb., the weather permitting. The past few weeks of rainy weather has interfered to a considerable extent with the grading and track laying and has put the work in something of a backward condition.

Christian People, Notice.

The pastors, S. S. Superintendents and those interested in church work are requested to call on me and get the names of those persons converted in the Oliver revival and call upon them. Would like for you to do this at once; the lists are now ready, and if they are not called for at once they may be lost or destroyed. Please call immediately. Orel M. Harper, Chairman of Secretarial Committee.

First Lesson Sunday.

A number of Ada young men met last evening at the Presbyterian church and discussed the matter of organizing the A. Y. M. B. S. The first lesson is Neh. 4th chapter. They will meet Sunday afternoon at 3 o'clock at the Presbyterian church to complete the organization and elect officers. A full attendance is desired; all are invited. The young women of the city will in all probability form a similar society in the near future.

In Self Defense

Major Hamm, editor and manager of the Constitutionalist, Eminence, Ky., when he was attacked 4 years ago by piles, bought a box of Bucklen's Arnica Salve, of which he says: "It cured me in ten days and no trouble since." Quickest healer of burns, sores, cuts and wounds. 25c at G. M. Ramsey's and F. Z. Holley's drug stores.

Cotton Gin Leased.

We have succeeded Jones & Meaders and are going after business now. Keep your eye on this space.

JONES BROS.

MIGRATION OF WILD GEESSE

How the Old Leader of a Flock Gathers It and Starts on Its Journey.

At the end of March or during the first week in April all the gray geese in the Outer Hebrides collect in one place before taking their departure for their nesting haunts within the Arctic circle.

To estimate their numbers is impossible, and to behold this vast concourse of geese as one of the sights of a lifetime. The vast host of birds stands packed together in a huge phalanx till the king of the graylegs starts the flight. As the old leader ascends a hundred thousand voices salute him, but none stir till from overhead he gives the call for his subjects to follow him.

Some fifty birds rise in the air and follow him, and as they go gradually assume the wedge-like formation, with three single birds in a string at the apex of the triangle, and in a few minutes are out of sight. When they have been fairly started the king returns, and after a few minutes rest he rises into the air again, and the same process is gone through before he leads off another batch.

Again and again he returns until all are gone but 300 old veterans, which rise to meet him in the air as he flies back to them. Then, with their sovereign at their head, these also wing their way toward the pole not to return until the following October.

MEASURING DEPTH OF AIR

Atmospheric Envelope of Earth Determined by Interesting Scientific Observation.

One hundred and 31 miles is the height of the atmosphere as measured by Prof. T. J. J. See, who determines the thickness of the air envelope by noting the difference between the time of sunset and the complete disappearance of blue from the sky. The moment at which the blue changes into black can be observed quite easily with approximate certainty by the naked eye when the air is clear; and by trigonometry may be ascertained the distance below the horizon of the sun at the moment of change. By this means may be calculated the height of the smallest illuminated particles of oxygen and nitrogen which give to the sky its blueness of tint by the reflection of the smallest wave lengths of the sun's light. The instant of change from blue to black is possibly a little difficult of exact observation, but the method is not more doubtful than that based in the observation of shooting stars. The shooting star method gives a result not greatly differing from the vanishing blue method. The former gives the height of the atmosphere as 109 miles.

Swiftest of Torpedoes.

The new torpedo of the United States navy is one of the most powerful sea weapons in existence. It will travel more than two and a quarter miles, or twice the range of the Whitehead torpedo, which it supersedes. The new missile is turbine driven. The government will purchase and construct 400 of these torpedoes at a cost of several millions.

Strong Hint in the Figures. "Gladys," called her pa, "what time is it?"

"It's eleven, father."

"It's 12 up here. Eleven and 12 are 23."

And then the young man departed. —Houston Chronicle.

Thrown Out.

"And you say you lost your position by the great earthquake in San Francisco?" inquired the kind lady.

"Yes, mum," replied Frayed Franklyn.

"What was your position?"

"I wuz asleep in a barn at de time, mum." —Milwaukee Sentinel.

Galveston's Sea Wall makes life now as safe in that city as on the higher uplands. E. W. Goodloe, who resides on Dutton St., in Waco, Texas, needs no sea wall for safety. He writes: "I have used Dr. King's new discovery for consumption the past 5 years and it keeps me well and safe. Before that time I had a cough which for years had been growing worse. Now it's gone." Cures chronic coughs, la grippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at G. M. Ramsey's and F. Z. Holley's drug stores. Price 50c and \$1. Trial bottle.

A Mystery Solved.

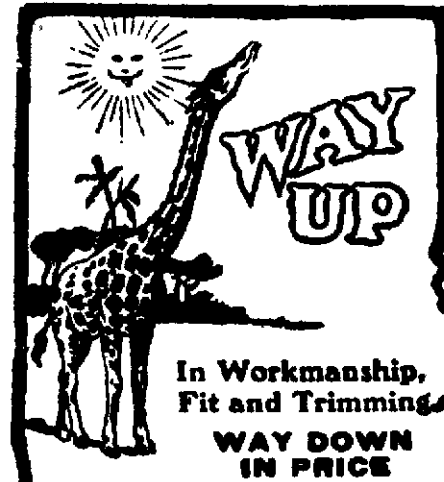

"How to keep off periodic attacks of biliousness and habitual constipation was a mystery that Dr. King's new life pills solved for me," writes John N. Pleasant, of Magnolia, Ind. The only pills that are guaranteed to give perfect satisfaction to everybody or money refunded. Only 25c at G. M. Ramsey's and F. Z. Holley's drug stores.

Found Dead on the Streets.

A young man was found dead on the streets of Baton Rouge, supposed to have died from a congestive chill, which could have been prevented by the timely use of Dr. Mendenhall's Chill and Fever Cure. Sold by G. M. Ramsey, druggist.

Don't Infect the Children

If the children are afflicted with chills and fever do not infect them with disagreeable medicines when you can get a pleasant remedy like Dr. Mendenhall's chill and fever cure. Any child will take it readily. Sold on a signed guaranty, to be better than any other by G. M. Ramsey, druggist.

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 3

ADA, INDIAN TERRITORY, THURSDAY EVENING, AUGUST 16, 1906

NUMBER 125

REPORTED ARRANGEMENT OF ADA'S DISTRICT

An Ada citizen was in conversation with a man on the train this morning who claimed to have seen the official map indicating the constitutional delegate districts for the Indian Territory. He said that the district in which Ada is situated is formed by a line that begins at a township corner three miles due east of the south edge of the city limits, running north to the river, taking in Oakman and Tyrola. The line follows the river west to the township line, about four and a half miles west of Byars, thence south to a point within a mile of Iroquois, and east, missing Midland a half a mile, continuing along the south edge of Ada to the point mentioned above.

The man who gave this out, also stated that Roff is included in a district with Sulphur and Davis.

Robert Cummings said to a News reporter today that he has it officially that the districting board has given out that the Chickasaw Nation will have fourteen delegates and the Choctaw Nation thirteen. This makes a total of twenty-seven for the two decidedly Democratic Nations, leaving twenty-eight to be apportioned among the Seminole, Creek and Cherokee nations. That convention looks Democratic to us by big odds.

M'CURTAIN WILL SPEAK.

The Choctaw Governor Will Stump for Democratic Party.

South McAlester, I. T., Aug. 16.—Pres. Lester, private secretary to Gov. Green B. McCurtain of the Choctaw Nation, was in this city today and in the course of a conversation said that Gov. McCurtain was much more enthusiastic upon matters political than even his friends supposed he was and that he would take the stump for the Democratic party in a few days to work among the full-bloods.

The Governor's first speech will be made at Eagletown on the 27th of this month. On the 29th he speaks at Kullepiko, a full-blood settlement near the Red river line, eighteen miles from any railroad. On the first of September he will wind up the campaign in a speech at Atoka, which is bound to attract much attention.

M. L. Walsh will furnish you with the White Swan brand. Phone 17.

Get your cold drinks and confectionaries at Evan's neatly furnished ice cream parlor. 112-11.

CHICKASAW AND CHOCTAW SIDE GETS 27 DISTRICTS

Muskogee, I. T., Aug. 15.—The Indian Territory districting board appointed by the president to form the election districts of the eastern part of the new state finished its work yesterday, after several days of consecutive sessions.

Members would make no public statement further than that a report would be made within a few days to the governor of Oklahoma and to the Chief Justice of Indian Territory, who will issue an election proclamation for the election of delegates to the constitutional convention.

The Oklahoma board has also completed its work and a report will be made to Governor Frantz at the same time the Indian Territory report is made to Judge Clayton.

Judge Clayton will go to Guthrie Friday for a conference with Governor Frantz and on that day they will draft an election proclamation.

This proclamation will be made public at their will—which in all probability, will be Monday of next week.

Until this proclamation is issued, neither board will make public the districts they have made.

The Indian Territory board will at once busy itself with the appointment of election commissioners in each district. There is to be one commissioner in each district. The commissioner appoints the judges and clerks of the election board in each voting precinct in his district.

Tama Bixby stated tonight that there will be at least 600 voting precincts in the fifty-five districts.

The districting commission will have the election ballots printed and delivered to the commissioners who will distribute them, each in his own district.

Ballot boxes and booths will be distributed in the same way. The commissioner in each district will return the ballots to the districting commissioner which will act as a canvassing board. This election will be for selecting delegates to the constitutional convention alone, and when that is done the district lines will stand for naught.

A description of the district boundary will be furnished every newspaper that will publish them, and in addition to this circulars will be printed and distributed widely through the territory in an effort to give the people as much information as possible.

A local firm of draughtsmen has a contract to make colored maps of the districts and this map will be ready shortly after the proclamation is issued.

The commissioners will give out absolutely nothing as to what the districts are until the proclamation is issued.

It is known that there are twenty-eight districts north of the Canadian river and twenty-seven south.

The Republicans who claim to know state that eighteen north of the river should be Republican. The Democrats claim the board has been unable to make a majority of districts show a normal Republican majority.

NEBRASKA LINES UP FOR THE GREAT COMMONER

Lincoln, Neb., Aug. 16.—When the Democrats of Nebraska met here yesterday for their state nominating convention, the purposes which seemed to be uppermost in the minds of the delegates was to do nothing which might displease William J. Bryan, in behalf of whose proposed presidential candidacy the Nebraska Democrats desire to insure the greatest possible degree of harmony. The convention met at 2 o'clock with Judge C. M. Skiles of David City as temporary chairman.

Judge Skiles, the temporary chairman, called the convention to order shortly after 2 o'clock and delivered his address in which he said:

Nebraska Democracy is a little better than the best and improves with age. A few years ago we were anarchists, repudiationists, calamity howlers. Standing for precisely the same principles today that we stood for then, we have suddenly become patriots, statesmen, benefactors. Talk about the miraculous conversion of St. Paul, we have been wholly redeemed without either conversion or repentance. Nebraska Democracy today stands undaunted, immutable, vindicated.

The time is speedily coming when by the advice and command of the American people, the guilty highwayman, the oppressors of the poor, and mockers of the courts will be brought to their knees in humble submission by an outraged people. It may take revolution, it may take bloodshed but in my opinion it need take only courage, determination and backbone of an American president who will enforce the criminal laws of the United States against the multi-millionaires in this nation. Such a man is coming. He is our friend and neighbor, that intrepid, ceaseless, tireless fighter, the great commoner and defender of human

rights—William Jennings Bryan, the young gladiator of the west who ten years ago struck the first deadly blow ever aimed at the heart of plutocracy in this country.

If the signs of the time mean anything, they certainly mean hope and cheer to the hosts of Democracy. Vain, vain, are the battles against the right. The Chicago platform and William J. Bryan were right. Time has proven it. The American people now admit it. The turbulent waves of opposition have spent their forces, the black streams of denunciation, vituperation and abuse no longer flow. The campaign for 1908 began in 1896 and victory is practically assured. The American people are simply waiting to render their verdict in favor of Democratic principles as consistently advocated for ten years past by our great Democratic leader. The old time defenders of safe and sane doctrines have disappeared—some of them in the custody of the sheriff, while others have left their country for their country's good.

The "stand pat" will soon have to show their greedy hands. The American voter will no longer be bluffed. Already you can hear the pitter-patter of their tramping feet as they march into line for 1908. And when these pitter-patters meet the "stand pat" there will be a clatter-clatter of the "stand pat" as they kinter-camber to overwhelming defeat.

Sunday Excursion.

There will be a Frisco excursion to Sulphur next Sunday. A special train will leave Ada at 10:08 a. m. and returning will leave Sulphur at 4:30 p. m. Just a dollar for the round trip.

I will trade a good sewing machine for a shoat, also an organ for a pony. 129-24t w18-4t. Lee Smith.

PROHIBITIONISTS READY FOR FIGHT TO THE FINISH

Oklahoma City, Ok., Aug. 16.—Rev. E. C. Dinwiddie, superintendent of legislation for the National Anti-Saloon league, who has arrived from Washington to take active charge of the campaign to be made in Oklahoma and the Indian Territory for a prohibition state, will in the next few days open headquarters in the Baltimore building where a suite of rooms has been engaged. Rev. Dinwiddie will be assisted by Revs. J. J. Thompson for Oklahoma and E. M. Sweet for Indian Territory, and an additional corps of helpers both in the office and the field. Miss L. R. Church, who has been Rev. Dinwiddie's private secretary for the past five years in Washington, will arrive in a few days and take charge of the office work.

Rev. Dinwiddie has visited many towns since coming to the territory, and aside from these things in the work in which he is interested he is also engaged at the progress of the new country.

The fight for prohibition is going to be pushed from this time on with increasing activity and every requisite justifiable will be put in motion in the hope of success. The prohibition question is going to be put squarely up to the business men and all, strictly on a business proposition. The moral side of it needs no argument nor discussion—it is too plain to everybody. The question of enforcing the law after the law is made will rest with the officers of the law and the selection of the right kind of officers lays with the people. In this will be solved the question of whether prohibition will benefit or not. A strong argument for the "hid" comes from Kansas City, where with the aid of Governor Folk, the saloons have been closed tight on Sunday and observed the law under which they are permitted to run. It is claimed that the police court records show a reduction of 25 per cent. in crime, such as usually comes from the saloon element, and that business among the merchants in the city has increased wonderfully. men employed on public works report promptly and in working condition on Monday morning, when they did not previously, and in the item of collections by the merchants doing a credit business, 60 per cent. improvement is noted. All this and more will be put up for argument in favor of prohibition. The work of securing delegates to the constitutional convention pledged either to incorporate prohibition in the constitution or have it submitted in a separate issue for the people to vote on at the time of the election to ratify the constitution and elect officers for the state, will be prosecuted in every county in Oklahoma and recording district in Indian Territory.

MASONIC GRAND LODGE ADJOURNS AT ARDMORE

Ardmore, I. T., Aug. 16.—Wednesday's session of the Masonic Grand Lodge of Indian Territory was augmented by an increased attendance. Considerable routine business was transacted. The reports of several grand lodge officers' committees were read. Subordinate lodges will vote on the location of the orphans' home and a committee was appointed to make a special report to the grand master, who will submit the entire matter to the lodges for disposition.

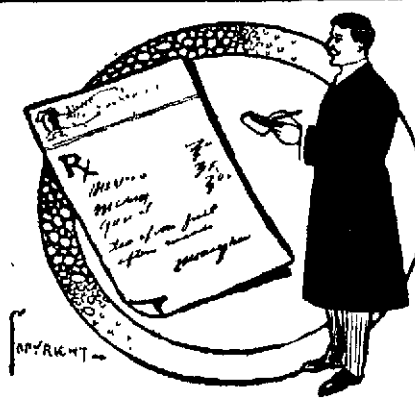

Steps were taken looking to the merger of the Oklahoma and Indian Territory jurisdictions by the appointment of a committee to confer with a like committee of the Oklahoma grand lodge. South McAlester was selected as the next meeting place and the following officers elected and installed for the ensuing year: Grand master, W. A. McBride, Atoka; deputy grand master, J. B. Mar, Checotah; grand senior warden, H. L. Muldrow, Tishomingo; grand junior warden, A. Eddleman, Ardmore; secretary, J. S. Morrow, Atoka; grand treasurer, Leo E. Bennett, Muskogee.

The grand lodge adjourned at night, after which a reception was tendered the visitors at the Elks' club. Today the grand chapter of the Eastern Star will meet in annual session.

A GOOD DOCTOR

is a broad minded man, and one who has the interest of his patient at heart and does all in his power to care for him. The best doctors' skill and ability is of little consequence if his prescriptions are filled by incompetent druggists and with impure drugs. Our prescription department is the largest and most complete of any in the city and is composed of the purest drugs and chemicals and compounded by experienced druggists. Consequently the best results are obtained. We can fill any prescription written by any physician in the city. You do not need to take them elsewhere because they are written on other druggists' stationery. G. M. RAMSEY, Druggist. (Successor to Clark Drug Co.)

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

A MATTER OF PRECEDENCE.

We would like to ask some questions of each one of the farmers in the Chickasaw and Choctaw Nations who have been living here for years, fondly anticipating the time when they could buy land for a home here. Suppose some business house should advertise that at a certain time there would be a bargain sale of goods. Suppose you should want to buy some of those goods, and go to the sale, to be met at the threshold by a polite clerk who would say: "Take a seat, Mr. Farmer, the house has made a rule that the negroes of this country shall have the first choice at these goods. You can get to the counter as soon as they are all satisfied." Think you, Mr. Farmer, that you would still have a desire to buy any goods from that house? Suppose that later a member of the firm controlling that sale should be a candidate for office? Would you feel like voting for him? Yet that is the way the Republicans are treating you in the land sale. When the time comes for the surplus lands of the Chickasaws and Choctaws to be sold, the white farmer must stand back until the negro has made his choice of such tracts as may suit him. Think that you will

vote with a party that gives you such a slap in the face as that. — Purcell Register.

THE NEW STATE FAIR.

There is vigorous enterprise in Muskogee. It is exemplified in their big New State Fair undertaking. This is to be held at that city from October 1st to 7th.

Every town in the coming state is invited to have exhibits. It will be a good opportunity for Ada to advertise to the world its infinite variety of resources. Car loads of exhibits of produce and live stock will be hauled thither and return at one way rate. Ada would do well to get busy and get in on this.

THE rain came in on scheduled time this afternoon.

ADA has only two pastors. We claim 4000 people too. A measly shame.

Four of the local churches are without pastors. The News would like to see them get busy.

It is thought that the bonds for the dam and additional waterworks will be voted on the latter part of October. That is not any too soon for the News.

THE Texas Democrats are having a good time at Dallas this week. Never mind there will be something doing in Democratic Oklahoma before long. Just watch us smoke.

If unofficial reports are true, the constitutional district in which Ada is located includes the towns of Oakman, Tyrone, Maxwell, Rebec, Center, Chism, Johnson, Evans, McGee, Handnot and Iniquis. A lot of good communities filled with good people.

Hot weather saps the vital energy and makes the best workers feel lazy. To maintain strength and energy use Prickly Ash Bitters.

The End of the World

of troubles that robbed E. H. Wolfe, of Bear Grove, Iowa, of all usefulness came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I never would have survived had I not taken Electric Bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50 cents. Guaranteed by G. M. Ramsey and F. Z. Holley's drug store.

RAPID FLIGHT OF TIME.

Mule That Aged Five Years Between the Months of February and June.

Mr. Justice Brewer, of the United States supreme court, in lecturing to his law class at the George Washington university, says the American Spectator, told the following story:

"I knew of a case once where two darkies swapped mules. One of them was an old hand at the business, and in making the trade he represented his mule to be seven years old, and told of the many good traits the animal had not. This was in February. About two months later the other darky began to realize that he had been victimized in the bargain, and that the beast was fully 12 years old. So he decided to go back and tell the swindler he had lied to him about the animal. However, owing to it being the busy season of farming, he was not able to go until about the middle of June. He finally did go and told his man what he thought of his rascally misrepresentations about the mule.

"You say," said the other fellow "dat when you got de mule in February he was seven years old, and now it's June and he's 12 years old?"

"Yes, I do!" was the angry response.

"Well, sah, time sure do fly."

JAMAICANS LACK GINGER.

Seek Employment at Panama, But Are Said to Be Wasteful and Stupid.

Jamaicans are apparently jacks of all trades. Hungry for the big wages of Panama, school teachers, barbers, shoemakers, street clerks have flocked to the isthmus to find employment as masons, carpenters, blacksmiths and painters. Indifferently says Everybody's Magazine. They are wasteful, they are stupid, they are possessed with an unutterable hatred of exertion, other than conversation, preferably on religious or ethical topics. Here are some more statistics from my friend the foreman of painters. Hospital 54 is a building about 10 feet square the amount of white lead required for the paint to be applied to it would be here in the states about 75 pounds. It was necessary to use 250 pounds of white lead on the job. None of it was wasted, none was carried away, that white lead and all the other wasted materials which were mixed with it are chargeable to the Jamaica negro's inefficiency. Yet the canal must be built with Jamaican labor in the main. Some workmen are being brought from Galich in Spain some have been imported from Martinique a few very few have come down from the United States.

FIND HEART OF RAMESES

Vital Organ of Great Egyptian King Preserved in Vase for 3,164 Years.

A recent issue of the Comptes Rendus of the Paris academy contains an account of the successful identification of the heart of Ramses II., the Sesotris of the Greeks, after having been preserved since 1258 B. C. in soda and resinoid antiseptics.

Some months ago, says the New York Times, the council of the National Museum of the Louvre acquired possession of the four vases in blue enamel which contain the viscera and heart of Ramses II., and bear large medallions representing the names and attributes of the king.

The directors of the Egyptian museum desired absolute confirmation as to the contents of the vases and intrusted the examination of their contents to M. Lortet, who, with his colleagues, Professors Hugonnet, Renault and Rigan, made a careful physiological examination. Three of the vases contained bandages of linen tightly compacted and hardened by the carbonate of soda and aromatic resinous substances of reddish color, which had been employed as antiseptics and had probably contained the stomach, intestines and liver of the great king. These viscera however were only found to be represented by a quantity of granular matter mixed with a large proportion of powdered carbonate of soda and so could not be identified.

The fourth vase, which was fitted with a lid or cover, lined with the head of a jackal, proved to contain the heart. This organ was found transformed into a kind of oval plate eight centimeters long and four centimeters wide. The substance of the heart was hornlike and the lid had to be used in obtaining sections of it for examination and finally the razor so as to reduce these sections to the attenuation necessary for microscopic examination.

Under the microscope these sections gave unmistakable evidence of the muscular fibers peculiar to the heart, especially characterized by being arranged in bundles of such fibers crossing each other. Since this special muscular arrangement is not found in any other part of the body except the tongue and as the mummy of Ramses II. which is preserved at Cairo, contains the tongue intact, the experts have no doubt whatever that the vase actually contained the heart of Ramses II. flattened and transformed into a hornlike substance by its long sojourn in the soda preservatives.

King Ramses II. died 1258 years before the Christian era, and hence some 3164 years have elapsed since his heart was first embalmed.

NO NOMINATION YET.

During Wednesday Texas Convention Took Only One Ballot for Governor.

Under the new election law of Texas the nominating procedure is a ponderous, intricate matter. The Democratic State convention in session at Dallas, though kept busy during Wednesday, the second day, effected no nomination for governor. Senator Bailey, who had no opposition, was perfunctorily declared the nominee for re-election. Late in the day the first ballot for the governorship was taken, but all the complex computations were not completed. However, the convention vote will be: Campbell, 195,852; Colquitt, 157,124; Bell, 156,489; Brooks, 137,971. Receiving the lowest vote, Brooks will be dropped. There is no certainty which of the three remaining will win out.

MANY RESTRICTIONS REMOVED.

Not More Than 10 per cent of Applications Disapproved.

Muskogee, I. T., Aug. 14.—The removal of restrictions division at the agency is getting under way again and the Indian agent is passing on applications at the rate of from thirty to forty per day. The agent states that the applications now coming in are from an intelligent class of Indians and that there are not more than ten per cent of the applications disapproved at the agency. Of these approved by the agent there are about two per cent disapproved by the department of interior and these are in the oil districts of the Creek and Cherokee Nations. The applications come about equally from men and women and in nearly every instance the reasons set forth for wanting to sell the land is to get funds to improve the rest of the allotment.

WHEAT SPROUTS IN STACK.

Continual Wet Weather Endangers the Harvested Grain.

Guthrie, O. T., Aug. 16.—Farmers are discovering that the continued rains have damaged some of the stacked grain as well as that which has been left in the shock. Damage has been sustained where the wind has blown the top bundles out of place, allowing the rain to soak in.

This season has been like that of 1900. That year some of the stacked grain sprouted, causing the stacks to grow solid from top to bottom. It was necessary to cut the stacks in two with hay knives and to allow them to dry before the grain could be threshed and then it was of inferior quality. The farmers in some localities fear that they may meet similar conditions this year.

Cement Men Depart.

Messrs Beck and Bishop of the cement Company, having attended to all matters connected with the establishment of their plant here possible right at the present time, returned Wednesday afternoon to Chicago. The site has not been finally determined upon. They will need to take that matter up with the railroads to some extent. However, the gentlemen are fully satisfied with the action of the city council and the general attitude of Ada's citizens. There's a world of details to be looked after in getting together the plant's equipment. They will at once busy themselves with that.

Central to Reach Chick. in Feb.

Chickasha, I. T., Aug. 16.—J. F. Sharp, Gen. Atty. of the Oklahoma Central, was in the city and in an interview, stated that his road would reach Chickasha some time about the first of Feb., the weather permitting. The past few weeks of rainy weather has interfered to a considerable extent with the grading and track laying and has put the work in something of a backward condition.

Christian People, Notice.

The pastors, S. S. Superintendents and those interested in church work are requested to call on me and get the names of those persons converted in the Oliver revival and call upon them. Would like for you to do this at once; the lists are now ready, and if they are not called for at once they may be lost or destroyed. Please call immediately. Orel M. Harper, Chairman of Secretarial Committee.

First Lesson Sunday.

A number of Ada young men met last evening at the Presbyterian church and discussed the matter of organizing the A. Y. M. B. S. The first lesson is Neh. 4th chapter. They will meet Sunday afternoon at 3 o'clock at the Presbyterian church to complete the organization and elect officers. A full attendance is desired; all are invited. The young women of the city will in all probability form a similar society in the near future.

In Self Defense

Major Hamm, editor and manager of the Constitutionalist, Eminence, Ky., when he was attacked 4 years ago by piles, bought a box of Bucklen's Arnica Salve, of which he says: "It cured me in ten days and no trouble since." Quickest healer of burns, sores, cuts and wounds. 25c at G. M. Ramsey's and F. Z. Holley's drug stores.

Cotton Gin Leased.

J. H. Cantrell and A. B. Auld of Ada have leased for the season the Stonewall cotton gin from Mooney Harrison and Jackson. Auld will move this family to Stonewall and reside there during the cotton season.

W. W. Higgins Will Teach.

Our townsman, W. W. Higgins, has accepted a position in the city schools at Houston, Texas. He has rented his residence to T. B. Kile and will leave September 1st. He will return to Ada, however, he says, at some future time.

Texas Testimony.

Wharton, Texas, May 22, 1906. "Please ship 3 gross Dr. Mendenhall's chill and fever cure as per your quotations. We have been selling your chill cure for 6 years and think it the best chill tonic on the market."—L. B. Outler & Co., druggists. Sold by G. M. Ramsey, druggist.

We have succeeded Jones & Meaders and are going after business now. Keep your eye on this space.

JONES BROS.

MIGRATION OF WILD GEESSE

How the Old Leader of a Flock Gathers It and Starts on Its Journey.

At the end of March or during the first week in April all the gray geese in the Outer Hebrides collect in one place before taking their departure for their nesting haunts within the Arctic circle.

To estimate their numbers is impossible, and to behold this vast concourse of geese as one of the sights of a lifetime. The vast host of birds stands packed together in a huge phalanx till the king of the graylegs starts the flight. As the old leader ascends a hundred thousand voices salute him, but none stir till from overseas he gives the call for his subjects to follow him.

Some fifty birds rise in the air and follow him, and as they go gradually assume the wedge-like formation, with three single birds in a string at the apex of the triangle, and in a few minutes are out of sight. When they have been fairly started the king returns, and after a few minutes rest he rises into the air again, and the same process is gone through before he leads off another batch.

Again and again he returns until all are gone but 300 old veterans, which rise to meet him in the air as he flies back to them. Then, with their sovereign at their head, these also wing their way toward the pole not to return until the following October.

MEASURING DEPTH OF AIR

Atmospheric Envelope of Earth Determined by Interesting Scientific Observation.

One hundred and 31 miles is the height of the atmosphere as measured by Prof. T. J. J. S. S., who determines the thickness of the air envelope by noting the difference between the time of sunset and the complete disappearance of blue from the sky. The moment at which the blue changes into black can be observed quite easily with approximate certainty by the naked eye when the air is clear; and by trigonometry may be ascertained the distance below the horizon of the sun at the moment of change. By this means may be calculated the height of the smallest illuminated particles of oxygen and nitrogen which give to the sky its blueness of tint by the reflection of the smallest wave lengths of the sun's light. The instant of change from blue to black is possibly a little difficult of exact observation, but the method is not more doubtful than that based in the observation of shooting stars. The shooting star method gives a result not greatly differing from the vanishing blue method. The former gives the height of the atmosphere at 109 miles.

Swiftest of Torpedoes.

The new torpedo of the United States navy is one of the most powerful sea weapons in existence. It will travel more than two and a quarter miles, or twice the range of the Whitehead torpedo, which it surpasses. The new missile is turbine driven. The government will purchase and construct 400 of these torpedoes at a cost of several millions.

Strong Hint in the Figures. "Glady's," called her pa, "what time is it?"

"It's eleven, father."

"It's 12 up here. Eleven and 12 are 23."

And then the young man departed.—Houston Chronicle.

Thrown Out. "And you say you lost your position by the great earthquake in San Francisco?" inquired the kind lady.

"Yes, mum," replied Frayed Franklyn.

"What was your position?"

"I was asleep in a barn at de time, mum."—Milwaukee Sentinel.

Galveston's Sea Wall

makes life now as safe in that city as on the higher uplands. E. W. Goodloe, who resides on Dutton St., in Waco, Texas, needs no sea wall for safety. He writes: "I have used Dr. King's new discovery for consumption the past 5 years and it keeps me well and safe. Before that time I had a cough which for years had been growing worse. Now it's gone." Cures chronic coughs, la grippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at G. M. Ramsey's and F. Z. Holley's drug stores. Price 50c and \$1. Trial bottle.

A Mystery Solved.

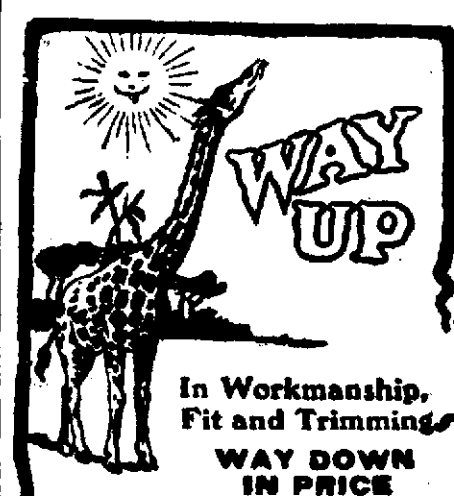

"How to keep off periodic attacks of biliousness and habitual constipation was a mystery that Dr. King's new life pills solved for me," writes John N. Pleasant, of Magnolia, Ind. The only pills that are guaranteed to give perfect satisfaction to everybody or money refunded. Only 25c at G. M. Ramsey's and F. Z. Holley's drug stores.

Found Dead on the Streets.

A young man was found dead on the streets of Baton Rouge, supposed to have died from a congestive chill, which could have been prevented by the timely use of Dr. Mendenhall's Chill and Fever Cure. Sold by G. M. Ramsey, druggist.

Don't Inflict the Children.

If the children are afflicted with chills and fever do not inflict them with disagreeable medicines when you can get a pleasant remedy like Dr. Mendenhall's chill and fever cure. Any child will take it readily. Sold on a signed guaranty to be better than any other by G. M. Ramsey, druggist.
